ABOUT CADMIDIUM

Cadmidium Services is a reliable and dedicated company with a mission to provide solutions which add value to the Defence and Security of the United Kingdom and its Allies.

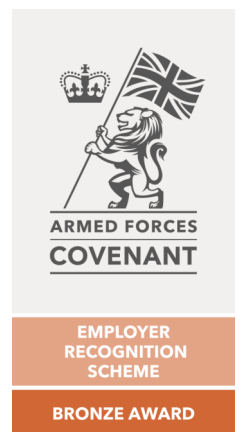

Established as a private limited company in February 2006 as a project management consultancy working within the UK defence industry, Cadmidium Services has now since developed into a responsive, flexible, proactive, and easy company to work with across a range of services and sectors.

Cadmidium Services has developed a reputation for exceeding expectations. We are proud to deliver quality products and services to both private and public sectors by priding ourselves on our professionalism and dedication. We are well known for providing high quality and cost-effective solutions for our customers often to demanding standards and timelines, whilst ensuring value for money.

We are proud to say that we are a company who is ISO 9001:2015 certified and Cyber Essentials Plus certified.

Cadmidium Services is dedicated to our employees and their development. We are proud members of the Armed Forces Covenant supporting the military and the reserves, and an Enterprise Partner with the Institute of Engineering and Technology (IET).

Cadmidium Services recently took the step in becoming carbon neutral and invests in a carbon neutral future by working alongside Forest Carbon.
